

# Merry Christmas and Happy Holidays

From the Mayor, City Council, and the City of Humble Staff!

## EXCELLENCE IN WATER SAFETY

Our Wastewater Department deserves tremendous appreciation for the vital work they perform every day to keep our community safe.

Thanks to their diligence, expertise, and proactive measures, our city has never had to issue a boil-water notice, even when surrounding areas have faced significant

challenges. Through rigorous testing, careful monitoring, and extra precautions during difficult conditions, they continue to ensure that our drinking water remains clean, reliable, and safe for all residents. We are truly proud of their unwavering commitment to protecting public health and serving our community with excellence.

## MUNICIPAL CLERK OF THE YEAR

Our community is proud to celebrate Maria Jackson for being named Clerk of the Year by the Texas Municipal Clerks Association Salt Grass Chapter, one of the highest honors in the profession. This recognition reflects her outstanding dedication, integrity, and service to our city. We congratulate her on this well-deserved achievement and thank her for the remarkable work she does every day.

## ELECTED OFFICIALS DAY

Mayor Norman Funderburk was honored to take part in the Youth Leadership Academy's Elected Officials Day, where students from all six Humble ISD high schools spent time learning about local government and engaging directly with community leaders. The students especially enjoyed meeting the Mayor, taking photos, and even getting the chance to hold the gavel, a moment that brought out their enthusiasm and reminded us that behind every teenager is a young person eager to learn and be inspired. We are grateful for the opportunity to support this incredible program and proud to play a small part in encouraging the next generation of leaders.

## BE SAFE THIS HOLIDAY SEASON

Put a **FREEZE** on Winter Holiday Fires

**Did you know?** **As you deck the halls this season, be fire smart.**

**More than 1/3** of home decoration fires are started by candles.

Keep candles at least **12 inches** away from anything that burns.

Think about using **battery-operated** flameless candles.
