

Fercam Group Project: City of Humble Asbestos Containing Materials Abatement and Demolition

Dave's Antiques Project No. 2012107

Old Humble Museum Project No. 2101009

Senior Activities Center Project No. 2011098

Addendum 1 Clarification

TO: All Bidders and parties who attended the Pre-Bid Meeting or received bid documents for the above referenced project(s).

The following contractor questions have been submitted in writing to the City of Humble for clarification.

Contractor Submitted Questions

Item No. 04:

Question: Please provide specs for fill material required for Demolition.

Answer: We are currently in the process of determining the earthwork backfill requirements for each site which will be issued in a follow up addendum.

Clarification: Contractors shall utilize existing sections 02210 earthwork and section 02245 finish grading issued in the original project specifications for fill material and earthwork backfill requirements. These sections will be utilized for each site.

Respectfully submitted,

Fercam Group
